

OBJECTIVE

Enthusiastic IT student with skills in web development, programming, and software testing. Seeking an opportunity to apply my knowledge, learn new technologies, and grow as a software professional.

SKILLS

Languages	Python
Web Technologies	HTML, CSS, JavaScript, Angular, TypeScript
Databases	SQL, MongoDB
Tools & Libraries	OpenCV, TensorFlow, NumPy, Selenium, GitHub, VS Code
Concepts	Machine Learning, Data Analysis, Manual Testing, DSA
Soft Skills	Analytical Thinking, Problem Solving, Teamwork, Adaptability

INTERNSHIP

AI/ML Intern at Annular technologies pvt ltd
Chennai, Tamil Nadu

2025

- Developed intelligent chatbot systems for automated user interaction and query resolution
- Implemented OCR pipelines for automated document digitization
- Applied machine learning techniques to improve model accuracy across NLP and vision-based tasks

PROJECTS

Travel Application System - 2026

HTML, CSS, JavaScript, SQL

- Developed a full-stack web application for browsing, filtering, and booking travel packages
- Managed user accounts and booking records using relational database (SQL) integration
- Designed a responsive user interface to enhance user experience across multiple devices

Women Safety Alert System - 2025

Python, OpenCV, TensorFlow, Telegram API

- Built a real-time distress detection system using live video analysis with OpenCV and TensorFlow
- Integrated Telegram Bot API to trigger instant safety alerts for rapid emergency response
- Implemented automated monitoring to improve emergency detection and response efficiency

Air Quality Prediction System - 2025

Python, ML, Pandas, NumPy, Power BI

- Improved prediction accuracy by 25% through data preprocessing and feature engineering
- Documented and visualized pollution trends using Matplotlib and Power BI
- Analyzed historical environmental data to support data-driven decision making

Wedding Hall Reservation System - 2025

HTML, CSS, JavaScript, SQL

- Developed a web-based reservation system for booking and managing wedding hall availability
- Managed hall bookings, customer records, and scheduling using relational database (SQL) integration
- Created an efficient booking workflow that reduced manual scheduling efforts

SprintFit Investment web - 2025

HTML, CSS, JavaScript

- Developed a responsive investment management web for tracking financial goals and investment portfolios
- Designed intuitive user interfaces with interactive dashboards for monitoring investment performance
- Implemented portfolio visualization and financial analytics features to support informed investment decisions

EDUCATION

B.Tech in Information Technology, A.V.C College of Engineering

Nov 2022 — May 2026

GPA: 8.1 / 10

Higher Secondary (Bio-Maths), Raj Matriculation Higher Secondary School

Sep 2021 — May 2022

GPA: 7.5 / 10

SSLC, Raj Matriculation Higher Secondary School

Jun 2019 — Mar 2020

GPA: 7.8 / 10

CERTIFICATIONS

Smart India Hackathon 2024 — Qualified for national-level innovation program among 1000 participants

Tansam Hackathon 2025 — Secured 3rd Prize in a state-level hackathon for an innovative project

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge and belief.
